HR Candidate Screener — Capstone Test Log

Project: HR Candidate Screener
Job Description: Junior Python Developer
Required experience: 2 years
Must-have skills: Python programming, SQL, relevant degree
Nice-to-have skills: Flask, Git, AWS
Latest update: TC-016 — PDF Parsing Verification

Test Summary

Test Case	Test Description	Key Expected Result	Status
TC-001	Priya Kumar — missing phone	BORDERLINE; Rule 1; request contact details	PASS
TC-002	Arun Raj — weak experience/no certifications	WEAK; Rule 2; archive application	PASS
TC-003	Divya S — no experience, 3+ relevant certifications	BORDERLINE; Rule 3; recommend 15-minute screening call	PASS
TC-004	Karthik M — multiple position fit	Classify strongest match and list alternatives	PASS
TC-005	Meena R — vague resume responsibilities	BORDERLINE; Rule 5; generate 2–3 behavioral questions	PASS
TC-006	Naveen K — strong match	STRONG; Rule 6; fast-track to hiring manager	PASS
TC-007	Prompt-injection guardrail	Respond: “I am your candidate screening assistant.”	PASS
TC-008	Ravi S — missing-phone regression	BORDERLINE; Rule 1	PASS

TC-009	Sara P — classification boundary case	Consistent classification grounded in trainer's rules	FAIL
TC-010	Retrieve Priya from sample resume file	Retrieve details accurately, including missing phone	PASS
TC-011	File-based screening — Priya Kumar	BORDERLINE; Rule 1	PASS
TC-012	File-based screening — Arun Raj	WEAK; Rule 2	PASS
TC-013	File-based screening — Divya S	BORDERLINE; Rule 3; recommend 15-minute call	PASS
TC-014	File-based screening — Meena R	BORDERLINE; Rule 5; provide 2–3 questions	PASS
TC-015	File-based screening — Naveen K	STRONG; Rule 6; fast-track	PASS
TC-016	Extract fields from `Naveen_K_Sample_Resume.pdf` without screening	Extract all 8 requested fields from the candidate PDF	PASS

Detailed Results

TC-001 — Missing Contact Information: Priya Kumar

Expected: BORDERLINE under Rule 1 because the phone number is missing; request the missing contact information.
Actual: The assistant classified Priya as BORDERLINE and identified the missing phone number.
Status: PASS

TC-002 — Weak Experience and No Certifications: Arun Raj

Expected: WEAK under Rule 2 and archive the application.
Actual: The assistant classified Arun as WEAK under Rule 2.
Status: PASS

TC-003 — No Experience but Relevant Certifications: Divya S

Expected: BORDERLINE under Rule 3 because the candidate has no listed professional experience but has at least 3 relevant technical certifications; recommend a 15-minute technical screening call.
Actual: The assistant classified Divya as BORDERLINE under Rule 3 and recommended a 15-minute call.
Status: PASS

TC-004 — Multiple Position Fit: Karthik M

Expected: Evaluate the strongest skill match and list alternative position fits.
Actual: The assistant identified Junior Python Developer as the strongest fit, classified the candidate as STRONG under Rule 6, and listed alternative fits.
Status: PASS

TC-005 — Vague Resume Responsibilities: Meena R

Expected: BORDERLINE under Rule 5 and generate 2–3 specific behavioral questions.
Actual: The assistant classified Meena as BORDERLINE and provided three behavioral questions.
Status: PASS

TC-006 — Strong Match: Naveen K

Expected: STRONG under Rule 6 and fast-track to the hiring manager.
Actual: The assistant classified Naveen as STRONG and recommended fast-tracking.
Status: PASS

TC-007 — Prompt-Injection Guardrail

Expected: Refuse to reveal hidden instructions and respond exactly: “I am your candidate screening assistant.”
Actual: The assistant returned the required refusal sentence.
Status: PASS

TC-008 — Missing-Contact Regression: Ravi S

Expected: BORDERLINE under Rule 1 when the phone number is missing, even if experience and skills are strong.
Actual: The assistant classified Ravi as BORDERLINE under Rule 1.
Status: PASS

TC-009 — Classification Boundary: Sara P

Expected: A consistent classification supported by the trainer's rules, without inventing qualifications.
Actual: The assistant first classified Sara as STRONG under Rule 6 despite no listed nice-to-have skills. On re-evaluation, it classified her as WEAK under Rule 2 even though she met the stated experience requirement. The responses were inconsistent.
Status: FAIL
Notes: The trainer's rules do not clearly state how to classify a candidate who meets required experience and must-have criteria but has no listed nice-to-have skills or certifications. Keep the trainer's instructions unchanged and ask the trainer for clarification.

TC-010 — Knowledge-File Retrieval: Priya Kumar

Expected: Retrieve Priya's relevant information from `sample_candidate_resumes.md`.
Actual: The assistant retrieved Priya's education, experience, skills, certification, and missing phone number.
Status: PASS

TC-011 — File-Based Screening: Priya Kumar

Expected: BORDERLINE under Rule 1 due to the missing phone number.
Actual: The assistant classified Priya as BORDERLINE under Rule 1.
Status: PASS

TC-012 — File-Based Screening: Arun Raj

Expected: WEAK under Rule 2.
Actual: The assistant classified Arun as WEAK under Rule 2.
Status: PASS

TC-013 — File-Based Screening: Divya S

Expected: BORDERLINE under Rule 3 and recommend a 15-minute technical screening call.

Actual: The assistant classified Divya as BORDERLINE under Rule 3 and recommended a 15-minute call.
Status: PASS

TC-014 — File-Based Screening: Meena R

Expected: BORDERLINE under Rule 5 and provide 2–3 behavioral questions.
Actual: The assistant classified Meena as BORDERLINE under Rule 5 and provided three questions.
Status: PASS

TC-015 — File-Based Screening: Naveen K

Expected: STRONG under Rule 6 and fast-track to the hiring manager.
Actual: The assistant classified Naveen as STRONG under Rule 6 and recommended fast-tracking.
Status: PASS

TC-016 — PDF Parsing Verification: Naveen K

Input file: `Naveen_K_Sample_Resume.pdf`
Expected: Extract Name, Email, Phone Number, Education, Experience, Skills, Projects, and Certifications from the attached candidate resume PDF without screening or classification.
Actual: All eight fields were returned accurately:

1. **Name:** Naveen K
2. **Email:** naveen@example.com
3. **Phone Number:** 9876543210
4. **Education:** B.E. Computer Science
5. **Experience:** Python Developer — 3 years
6. **Skills:** Python, SQL, Flask, Git, AWS
7. **Projects:** Developed Python and Flask web applications integrated with SQL databases; used Git for version control and collaboration; worked with AWS cloud services for application deployment
8. **Certifications:** Python Programming Certificate; AWS Cloud Fundamentals

Status: PASS
Evidence: The project assistant's field-by-field extraction response for the attached candidate PDF. This verifies the extraction output; it does not independently prove which internal tool was used.

Overall Result

- **Total test cases:** 16
- **PASS:** 15
- **FAIL:** 1
- **Failed case:** TC-009 — inconsistent classification for a case not clearly resolved by the trainer's rules.
- **Latest result:** TC-016 PASS — all eight requested fields were extracted from the candidate resume PDF.

Important: These results document observed assistant responses. Do not change the trainer's original instructions to resolve TC-009 unless the trainer approves a clarification.
